20 lbs. or over 17¢ per lb. Not prepaid.

#### The Latest on the Farm Seed Situation

Our Government's plea for more food is being answered by the American Farmer and the purchase of Farm Seeds has started much earlier than usual.

The clover market is firm. Prices are not high at present levels. The short crop of Timothy is not high priced as yet but could easily work higher. A shortage has been created in Alfalfa seed and the best stocks of seed are about cleaned up.

Varieties of oats and barley adapted to the North East are scarce.

There are good stocks of most varieties of corn and the germination is above average.

As the weather warms up there is going to be a big demand for seed potatoes. Some varieties are already getting scarce. This is particularly true of the Russet and Chippewa. The Victory Garden is going to use a large amount of seed potatoes this year. Sweet Corn is another item much in demand for the Victory Garden.

Buy your seeds early and get them delivered at once. Dibble's Seeds can be shipped at once except for potatoes. Weather conditions will soon be safe for potato shipments.

Don't take a chance on being disappointed. Order today!

than half a century, we are naturally proud of the results they have produced proud of the results they have production our customers. The six varieties offered here—Warba, Early Ohio, Dibble's Irish Cobbler, Chippewa, Spaulding Rose and Houma—are featured because Pibble's Irish Cobbler

Let us point out at this time that northern-grown Seed Potatoes, when moved south only from 100 to 300 miles, frequently produce double the crop of home-grown seed, even of the same variety.

**EARLY POTATOES** 

We guarantee our Seed Potatoes northern-grown, carefully selected for seed purposes, a strictly first-class sample U. S. Grade No. 1 or better. While we exercise great care to have our Seed Potatoes pure and reliable, so many circumstances may arise, over which we have no control, that we do not give any warranty, express or implied, nor will we be responsible for the crops grown there-Customers are to examine their Seed Potatoes immediately on arrival,

as they are perishable goods, and, if not entirely satisfactory, advise us at once; otherwise it is mutually agreed between the buyer and seller that they are satisfactory.

For the convenience of our customers who would like Corn throughout the season for their table use, we have put up a garden assortment using the five varieties listed:

oz. Spancross 4 oz. Marcross oz. Carmelcross 4 oz. Lincoln 2 oz. Spancross 1 lb. Golden Cross Bantam

Plant all five varieties at the first planting and then follow with Golden Bantam at weekly intervals.

See special price-list for prices.

#### GOLDEN CROSS BANTAM

83 days. This variety has rapidly replaced open-pollinated sorts for canning, market gardening and home use and is by far the leading variety in cultivation today. Stalks about 6 feet tall with very uniform ears about 8 inches long. Planted at weekly intervals during May and June or even earlier if conditions permit, you will have the best of weet Corn throughout the season. Six to seven pounds will plant one

#### Dear Fellow Farmers:

We American Farmers have a real task to perform. Our Government has called upon us to produce a huge amount of food, not only for ourselves but for our Allies as well. The Secretary of Agriculture, Claude R. Wickard, has said, "Food will win the war and write the peace." He has spoken wisely. We farmers must make it so by cooperating to the fullest extent.

Our suggestion is to plan your farm operations early and order your seeds early so as not to be disappointed. Some seeds are already

A short time ago we mailed you our 1942 Catalogue describing Dibble's Farm Seeds. We are now sending you a new Price-List quoting today's prices.

We urge you to check over your seed requirements today and send us your order at once, for delivery as you may direct.

#### EDWARD F. DIBBLE SEEDGROWER HONEOYE FALLS, N. Y.

SOY BEANS We are strongly urging eastern farmers to increase their acreage of Soy Beans because they can be sold as a cash crop or mixed with other grains to make a high-protein dairy food. Then, too, they can be grown with Corn to increase the feeding value and they can be used as an emergency hay crop. In addition, they can be cut and fed as green roughage, used for grass silage or may be used to plow under for green manure.

# Our Juarantee

For fifty years we have been supplying the needs of American farmers. Our business policy has been based on an ideal which we adopted fifty years ago: "FARM SEEDS AND FARM SEEDS ONLY; ONE GRADE AND THAT THE BEST OBTAIN-ABLE AT THE LOWEST PRICE CONSISTENT WITH THE HIGHEST POSSIBLE QUALITY."

As we pass the half-century mark, we wish to express our gratitude to our many friends and customers for the loyal support which they have given us. We love the work we do and we give our pledge that we will endeavor to furnish the highest grade of farm seeds that it is possible to grow.

There is just one reason why we can afford to make the guarantee we do and allow you to be both judge and jury, and that is because our seeds are that kind. Dibble's famous "money-back-if-you-want-it" guarantee, subject to any test you want to make within ten days after the seeds reach you, is as fair and square as any ever given by an American firm. And our special guarantee or warranty is printed on the respective pages describing our seeds, and our various seeds are sold subject to the guarantee so printed. We are perfectly reliable and responsible. We refer you to the State Bank of Honeoye Falls, N. Y., Lincoln Alliance Bank and Trust Co., Rochester, N. Y., Dun & Bradstreet, Inc., Commercial Agency, or to any of our thousands of satisfied customers, some of whom must be in your vicinity.

EDWARD F. DIBBLE SEEDGROWER Sincerely yours,

#### DIBBLE'S RECLEANED TIMOTHY-ALSIKE NATURAL MIXTURES

The importance of the hay crop this year cannot be overestimated. To have a good crop you must have good seed. From experience we know that there are good, bad and indifferent mixtures and we have always cautioned our customers against buying any mixture that is not guaranteed as to purity, as well as the percentage of the mixture. We carry only one grade—the best. We are proud to say that you will find less than ½ of 1% weed

to meet the growing conditions in New York State and similar conditions in other areas. It matures in 110 to 115 days and is recommended for ensilage wherever West Branch Sweepstakes or Leaming is now used and for grain wherever a late strain of Cornell No. 11 matures. Comparative tests show it produces 40 to 50 per cent more grain at silage-cutting time and 15 to 20
